

Faucet Pro

INSTALLATION EXPERTS

FAQs

Congratulations on your new kitchen countertops!

The final step before enjoying your new kitchen is to have the faucet installed and the drain connected by a professional.

Who is Faucet Pro?

Faucet Pro is an independent company, working in conjunction with your granite installer to provide a convenient and affordable hookup service.

Who schedules the sink hookup appointment?

You do! Please call Faucet Pro directly to schedule an installation date. Please **do not** call your granite installer with faucet installation issues or scheduling.

When do I call to schedule the hookup date?

Call Faucet Pro **as soon as** the granite installers have given you an installation date. This will allow us to install the faucet the day after the completion of the granite installation. **Call well in advance** to guarantee next-day installation.

What happens if my granite installation date changes?

Call Faucet Pro immediately to reschedule. 404-644-9734

What do I have to provide?

- The new faucet
- Matching color basket strainers if your sink is any color other than stainless steel.
- Keep all your old drain pipes.
- Keep the bracket that connects your garbage disposal to your old sink.

What preparations do I have to make?

The entire cabinet under the sink has to be cleared and cleaned of granite dust.

What are the costs?

Call Faucet Pro at 404-644-9734 for an accurate phone quote of your labor costs for the installation of the faucet, garbage disposal and drain. Material costs will be assessed on site. We will use as much of your existing material as possible to keep your costs down.

Are these costs included in my granite quote?

NO. Faucet Pro is completely independent from your granite company. You deal with us directly in all matters regarding the installation of your faucet and drain.

What other related work does Faucet Pro do?

We also install bathroom vanity faucets, dishwashers, and cooktops.

Do you guarantee your work?

All labor is guaranteed for six months.

We look forward to hearing from you. If you have any other questions, or would like to schedule an appointment, please call Daniel at 404-644-9734.
